Your Patronage

has certainly been generous to a fault and we are grateful to have this opportunity of saying Thank You. As ever, we are glad to have you make our place your headquarters when you are in Manchester, whether you have Optical needs or not.

Optometry has advanced more in the value of its service during the past two years than ever before in the same period of time, and we intend to be among its vanguard.

TOWN WARRANT.

[L. S.]

STATE OF NEW HAMPSHIRE.

To the Inhabitants of the Town of Goffstown in the County of Hillsborough and in said State, Qualified to Vote in Town Affairs:

You are hereby notified to meet at the town house in said town on Tuesday, the ninth day of March next, at nine o'clock in the forenoon to act upon the following subjects:

1. To choose all necessary officers and agents for the ensuing year.

2. To raise and appropriate such sums of money as may be necessary for the support of schools, for maintenance of the poor, for the repairs of highways and bridges, and for Memorial Day.

3. To see how much money the town will vote to raise for the Goffstown public library.

4. To see if the town will vote to comply with the provisions of the law for the purpose of procuring state aid for highways.

5. To see what sum of money the town will vote to raise for the improvement of cemeteries.

6. To see if the town will vote to enlarge the banquet room at the town hall at Grasmere and raise and appropriate money for the same.

7. To hear the reports of the town history committee and see what action the town will take towards raising money for the same.

8. To hear the reports of agents and auditors and pass any vote relating thereto.

9. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 20th day of February, 1915.

GOFFSTOWN, N. H., February 15, 1915.

REPORT OF BOARD OF HEALTH.

The following cases have been reported to the board during the past year: Thirty-eight cases of measles, two of diphtheria, four of scarlet fever, five of typhoid fever, one of which resulted fatally, and one death from tuberculosis. During the fall an epidemic of typhoid fever caused considerable uneasiness among the townspeople, and an investigation was made to ascertain, if possible, the cause of same. Members from the state board with resident members investigated the local milk supply, sewerage and reservoirs, but could not place the responsibility for the cases in question.

Respectfully submitted,

FRANK BLAISDELL, M. D.,
MAURICE A. STARK, M. D.,
A. P. SEETON.

REPORT OF TRUSTEES OF GOFFSTOWN FREE LIBRARY.

In making our report we wish to say that we have been fortunate in retaining the services of our former librarian, Mrs. Ida J. Carpenter, and her assistant, Miss Etta Hart, who have attended to their duties in a manner that has been satisfactory to the trustees and patrons, and at this time we wish to extend to Miss Margaret I. Grant and Miss Ruth H. Bartlett our hearty appreciation of the efficient manner in which they have catalogued the books, which is now nearly completed, after two years' labor at a normal expense to the town.

REPORT OF THE BOARD OF EDUCATION, INDEPENDENT DISTRICT NO. 1.

The teaching force in the grades remain the same as last year, and we feel satisfied with the work being done there. During the past summer new floors have been laid in the lower and higher primary and high school rooms. All desks in the various rooms refinished, laboratory enlarged, typewriting room finished off in attic, store room for supplies built, fire escape erected, roof shingled, many minor repairs made, and an additional water supply pipe laid.

A new ceiling in the high school room is imperative, as it will become a menace to the pupils, before another year, according to expert opinion.

True economy as well as civic pride demands that the building be painted outside and in. With this extra work this summer the district will have a building which will undoubtedly serve every purpose for the next ten or fifteen years, with only the ordinary repairs.

We ask for ordinary expenses for the ensuing year: Teachers salaries, $4,200; janitor, $300; fuel, $250; books, $200; supplies, $200; music, $100; board of education, $75; flag, $8.00.

REPORT OF SCHOOL BOARD, TOWN DISTRICT.

The school board of the town district submits the following report:

The same number of schools have been maintained as was reported last year. The only changes being in districts 11 and 12.

The school in district No. 11 was closed at the beginning of the year for which this report covers, and the pupils are being transported to other districts.

After a lapse of several years, school was reopened in district No. 12.

The school work in district No. 9 is being seriously interrupted by several cases of scarlet fever among the pupils. It is sincerely hoped that the measures taken to prevent a further spread of the disease will be effectual.

We are pleased with the work of our teachers, and believe the district is unusually fortunate in securing the services of the present corps.

REPORT OF TRUSTEES OF CEMETERIES.

In submitting the report for the past year, the trustees wish to acknowledge their appreciation of the continued interest manifested by the people in caring for the last resting place of the dead.

They have helped to beautify the cemeteries by their labor and by increased contributions of money for that purpose.

The number of bequests received during the past year for the perpetual care fund is a source of gratification to the trustees.

During the past year good progress has been made grading in West Lawn, and in another year the trustees hope to see the work practically completed in the old part and a new lawn laid out in the new part.

Owing to the scarcity of labor we could not accomplish some of the work that we would like to have done in our other cemeteries.

To the Unity Club of Goffstown and the Village Improvement Society of Grasmere, we wish to extend our thanks for the many ways in which they have assisted us.

EDGAR W. POORE,
FRANK A. PARKER,
FRANK W. KENDALL,
CHARLES F. WHITE,

Town Clerk.

Increase in Public Expenditures.

No power has constituted the members of the tax commission guardians of the public in respect to expenditures for the support of government, and they have no disposition to assume that role. Nevertheless, "economy being a most essential virtue in all states," and it being "the duty of legislators and magistrates * * * to countenance and inculcate the principles of * * * economy," all as set forth in the constitution of this state, the commissioners believe themselves to be amply justified in urging, as they have so often urged before, the importance of this subject upon the voters of the state. The public revenue, state and municipal, is the voters' business, and they are responsible, directly or indirectly, for every extravagance affecting it from the inception to the termination of the fund.

Every compulsory contribution levied by public authority upon people or property is in the broad sense of the term a tax, nor is it made less obnoxious or burdensome if called a fee or a fine. In the figures that follow therefore, all fees, fines, and other exactions, if any, are included with the taxes upon polls and estates. To illustrate the comparative importance of the two classes, it may be said that the taxes upon polls and estates represent about 95 per cent and all other income about 5 per cent of the total revenue of the state, and of the counties, cities, towns, districts and precincts therein.

Taxes as defined above have increased by leaps and bounds in recent years. In 1903 the sum of all the taxes assessed by and within the state of New Hampshire was

$5,373,420.22; in 1913 it was $8,765,039.07, an increase of $3,391,618.85, or 63 per cent., in ten years. But these figures do not adequately represent the velocity the upward movement has now attained. To show that it is necessary to divide the ten-year period: The levy in 1908 was $924,388.79, or 17 per cent. greater than in 1903, while that in 1913 was $2,467,230.06, or 39 per cent. greater than in 1908. By so much did the advance in the last half of said period exceed that in the first half. These figures will be the more alarming if it is remembered that while taxes already sufficiently heavy were advancing 63 per cent., the population of the state increased only about 4½ per cent., and while the one was advancing 39 per cent., the other increased only about 2¼ per cent.

It is instructive to study the subject from another angle. In the ten years from 1904 to 1914, both inclusive, the annual increase in all taxes defined and limited as above was as follows:

1904	$34,459.91.
1905	286,590.14
1906	115,468.39
1907	411,257.46
1908	76,612.89
1909	539,995.97
1910	787,565.31
1911	215,848.50
1912	296,216.85
1913	627,603.43

The average yearly increase for the whole period was $336,561.85. The upward trend is more plainly shown, however, by dividing, as before, the ten-year period in the middle and considering the halves separately. For the first five years the average annual increase was $184,877.76; for the last five years it was $493,446.01. It is surely pertinent to consider how long the little state of New Hampshire, almost stationary in wealth, can sustain a tax

already burdensome and increasing at the rate of practically half a million dollars a year without crippling her industries and impoverishing her people. Plainly it is a condition not calculated to attract capital from without the state or to encourage business within the same.

From the *per capita* standpoint the situation is not less disturbing. In 1903 there were assessed $12.88 in taxes for each man, woman and child in the state. Five years later there were assessed $14.75 for each individual, and in five years more $20.09. If in 1913 taxes had been equally distributed among all the people it would have meant a burden of $100 for each family of five members. Though in reality there was little such equality in the assessment there was much in the payment. The fact is that those who occupy, use or consume property, no matter who owns it, are those who in the last analysis pay most, if not all, of the taxes thereon. If the wage earner or the man of limited means understood he was in reality paying something like $100 a year in state and municipal and half as much more in federal taxes for the government of himself, his wife and three children his influence and his vote would more frequently make for economy in appropriations and expenditures than heretofore.

No statistics for the year 1914 appear in the above paragraphs for the reason that they are not yet at hand except in part.
